

# Above It All

Peter Frampton

Be near my heart  
Know that I will always lead you close  
Be free my bird  
If you fly take me with you where you go  
Heaven knows

It's me and you  
Chasing sunshine until tomorrow  
What will we do  
If the sky cries and turns to sorrow  
I see us picking up  
The pieces when they fall  
Rising above it all

Long is the night  
Like the thief comes sneakin' round our door  
But it's alright  
Come the dawn he won't come round here no more  
Then like before

It's me and you  
Chasing sunshine until tomorrow  
What will we do  
If the sky cries and turns to sorrow  
I see us picking up  
The pieces when they fall  
Rising above it all
