

All Down To Me

Peter Frampton

Looking all around me
Looking for directions that command me
Moving down another road I don't know
Waiting for you to wake me up
I can see no way out
It's so dark and no one can hear me shout
Living in a new world that I don't know
Asking time to please stand by

All down to me
All down to me
All up to me
All down to me

I want to dance around it
I ain't in just go dancing with it
I only know I only know the first step

And I can see it's alright
Follow in your footprints
While you give me oh so many subtle hints
Looking up and I can see a little light
And it's all down to me
All down to me
All down to me
All up to me
It's all down to me
I've been hurt
I've been cursed
But I'm at peace
I've found a remedy
And it's all up to me

All down to me
All down to me
All up to me
All down to me
