

Cleveland

Peter Frampton

It's taken so long for me to get here
Everything in the place it's meant to be
I've come this far for a reason
And now the future's all I see

I'm gonna come to life right here in Cleveland
It's gonna be my time to set things right
I'm gonna save my life right here in Cleveland
I'm not goin' down without a fight!

And there are dreams born every second
I'm chasin' my own every single day
You are the people, you can save me
This time, we're goin' all the way!

I'm gonna come to life right here in Cleveland
It's gonna be my time to set things right (Right, right, right)
I'm gonna save my life right here in Cleveland
I'm not goin' down without a fight!

From the east side
To the west side
There's the lakeside
From the Flats to the edge of my dream

Wheels are spinnin', heads are turnin'
I'll take the pleasures with the pain
As night falls, the city shimmers
I feel the fire in my veins!

I'm gonna come to life right here in Cleveland
It's gonna be my time to set things right (Right, right, right)
I'm gonna save my life right here in Cleveland
I'm not goin' down without a fight!
