

For Now

Peter Frampton

She buys me flowers
This could be big
She brings me French coffee
She's really diggin' me now, for now

She comes in the morning, leaves in the night
She's got a boyfriend
I guess that's alright now
For now, for now, for now, yeah

Friends are saying she's a waste of time
I should leave her now
Call me crazy
I still feel like we just might make it somehow

Well, I told her, someday, she'll be all mine
She said, "Keep dreaming"
I guess she's not buying it now
For now, for now, for now, yeah

Friends keep saying she's a waste of time
I should leave her now
Call me crazy
I still feel like we just might make it somehow
But for now I've decided to live for now, just for now

Friends keep saying she's a waste of time
I should leave her now
Call me crazy
I still feel like we just might make it somehow
But for now I've decided to live for now
