

# Heart in the Fire

Peter Frampton

Put your heart in the fire  
Put your heart in the fire  
Put your heart in the fire

Something happens between you and me  
I don't understand  
You say you gonna go out with me  
You always change your plans  
When I call you - you put me on hold  
Someone's there with you  
Then you tell me it's me you want  
Let's see what you can do

Put your heart in the fire (Fire)  
Put your heart in the fire  
Put your heart in the fire (Fire)

I know it's hopeless, I know it's wrong  
I really shouldn't care  
I'm attracted to something in you  
It really isn't fair  
You know you got me, you got it all  
I play at waiting for you  
You'll be the first to surrender it all  
Let's see what you can do

Now you're changing, you're coming around  
You start to come on warm  
I know that feeling, my heart starts to pound  
The storm before the calm  
You changed your mind at the drop of a pin  
It really happened fast  
Now you're outside, you wanna come in  
Let's see you pass the test

Put your heart in the fire (Fire)  
Put your heart in the fire (Fire)  
Put your heart in the fire (Fire)  
Put your heart in the fire (Fire)
