

Hold Tight

Peter Frampton

Oh I'll tell you why it burns inside and keeps me going
I think of all the things you did for me
I got so much to learn
Whatever will be is cast in stone

You took me by surprise, it's in your eyes - you're making me
Feel as there's no one else around but me and you
I wanna be sure
You'll give me all the love I want and more

Hold tight
It's a feeling in my heart that makes it
All right
And I hold my head up high
Hold tight
It's a feeling that I'm holding deep inside

I know we can make it now, it feels so good, don't touch a thing
Even if we make a few mistakes along the way
We got a lot to learn
Whatever will be is cast in stone

Hold tight
It's a feeling in my heart that makes it
All right
And I hold my head up high
Hold tight
It's a feeling that I'm holding deep inside

Got a lot on my mind
I know I left you behind
Please keep talking to me
There's no running away this time
Take a look in my eyes
You know it's hard to disguise
Yes, I believe that you can see me
And I can see you, deep inside

Hold tight
It's a feeling in my heart that makes it
All right
And I hold my head up high
Hold tight
This emotion that I'm holding deep inside my soul
Hold tight
It's all right
It's all right
It's all right
Hold tight
It's all right
It's all right
It's all right
Hold tight
It's all right
It's all right
It's all right
Hold tight

It's all right
It's all right
It's all right
Hold tight...
