

# How Long Is Forever

Peter Frampton

Love is a place  
Where we go to be free  
Free is the only way we should be

Now that we hear  
Watching the years disappear

How long is forever?  
I wonder how long it is  
How long do we have to love like this?

Gone are the days  
That taught us how  
To find the way that brought us to now

Now that we're here  
Watching the years disappear

How long is forever?  
I wonder how long it is  
How long do we have to love like this?

How long is forever?  
I wonder how long it is  
How long do we have to love like this?

All the time in the world will do  
All I'm asking from you

How long is forever?  
How long does it go on?  
My heart won't shut down now

How long is forever?  
I wonder how long it is  
How long do we have to love like this?  
Ooh, ooh, ooh
