

Never Ending Love Song

Peter Furler

We won't look back and have regrets
We won't let it go unsaid
You gave Your all in our stead
We can never forget, we can never forget

This is the love song that we sing
And it's never ending
This is the worship that we bring
And it's unrelenting

This is the sound of those You've won
It's forever ringing
This is the love song that we sing
And it's never ending, never ending

You are the only one who saves
We've all been captured by Your grace
We can't but look upon Your face
And we won't turn away, no, we can't turn away

This is the love song that we sing
And it's never ending
This is the worship that we bring
And it's unrelenting

This is the sound of those You've won
It's forever ringing
This is the love song that we sing
And it's never ending, never ending

Our only hope is nothing You can't do
To pull us through
And all we know is we're in love with You
In love with You

Our only hope is nothing You can't do
To pull us through
And all we know is we're in love with You
In love with You

This is the love song that we sing
And it's never ending
This is the worship that we bring
And it's unrelenting

This is the sound of those You've won
It's forever ringing
This is the love song that we sing
And it's never ending, never ending
Never ending, never ending
