

Colour Blue

Peter & Gordon

I love to see the colour grey as it turns into black
And I love the colour red for it's never made me look bad
But most of all I remember you
Will soon be leavin' me the colour blue

I remember seein' in your eyes a love like coloured sun
But now the clouds are passin' by and the colour's gone
But most of all I remember you
Will soon be leavin' me the colour blue

So I think I'll take a ride out to the colour green
I let the air go through my hair 'cause I'm lookin' for a change
But I know there's somethin' changin' you
And that you'll be leavin' me the colour blue
The colour blue-oo
The colour blue
