

## Greener Days

Peter & Gordon

As I write this letter  
I hope you're feelin' better  
Than I am as I sit here  
Fightin' back a tear  
'Cause my mind keeps shiftin'  
Back in time it's driftin'  
To the days when you were near

Those were greener days that we knew  
Just me and you  
Sharin' the world together  
But as they came  
They went away  
And our days of green  
Turned into grey

So I watch the sunrise  
Hopin' maybe your eyes  
Will be shinin' down on me  
To brighten up my world  
Like it once was glowin'  
When your face was showin'  
Me the way to find our love

And those greener days  
That we had  
It's kinda too bad  
They didn't last forever

But we'll go on  
Our separate ways  
'Cause our greener days  
Turned into grey

I better close and sign my name  
It's gettin' late  
But don't forget  
Our chance to twist the hands of fate

So the greener days will return  
Deeper they'll grow with every spring rain of love  
Rainbows will shine  
You will be mine

And our days of green  
Never turn to grey  
They'll never fade away  
They'll never turn to grey
