

## My First Day Alone

Peter & Gordon

Pardon me if I seem to be a little bit different today  
Pardon me if I seem to act a little bit peculiar today  
'Cause it's my first day of bein' alone  
Since she left me, says she's not comin' home  
And I'm not used to bein' on my own

So pardon me if I seem to be in another world, now she's gone  
But I'm just tryin' to keep from cryin' over that girl now, uh-  
huh  
And it's my first day of feelin' the pain  
Of bein' of lonely and no one's to blame  
But me, me and my stupid ways  
When will I ever learn  
If you treat someone like dirt  
You just get hurt in return?

So if you see her tell her for me  
I can't live without her, no how  
Oh, I can't get used to this lonely feelin'  
I needed her beside me right now  
And won't you ask her to forgive and forget  
All the bad times we had in the past?  
And please make my first day alone my very last

And won't you ask her to forgive and forget  
All the bad times we had in the past?  
And please make my first day alone my very last

Please make my first day alone my very last
