

## She Needs Love

Peter & Gordon

When she's down and out and feeling the blues (Give her love)  
No one else can cheer her up except you (Give her love)  
And this trouble that you've gone to  
Gives her something to hold on to  
Try a simple smile, she's a little child  
She needs love

Like all women she needs someone to care (Give her love)  
Her whole life is love that she wants to share (Give her love)  
Buy her presents, send her flowers  
But remember it's not flowers  
That she's longing for, she needs something more  
She needs love

Talk something gentle, something sentimental  
Such a simple thing  
'Cause when she's up and feeling like her old self  
She'll make you feel like a king

Do you love your woman? Take my advice (Give her love)  
When you kiss her whisper something that's nice (Give her love)  
You'll be so glad that you've said it  
'Cause a woman won't forget it  
She's a funny thing, but a special thing  
She needs love  
She needs love

Mm, give her love  
Give her love  
Give her love  
Give her love  
Give her love
