

## Soft As The Dawn

Peter & Gordon

Soft as the dawn's your face  
No star could touch this place

A love like yours and mine  
The stars don't have to shine  
The sun and moon would cry  
The earth itself might sigh  
If you and I should part  
You'd leave a broken heart

Soft as the dawn's your face  
No star could touch this place

A love like yours and mine  
The stars don't have to shine  
The sun and moon would cry  
The earth itself might sigh  
If you and I should part  
You'd leave a broken heart

Soft as the dawn's your face  
No star could touch this place
