

Black Woman

Peter Green

Black woman, please stay, don't listen now to what they say
Black woman, I'll be your lover, I know that you want me, we're
different colours
You're black and I'm a boy, and we'll mix it, girl, to black and
feels right
Black woman, hold me tight, make love to me

Black woman, don't go, 'cause if I lose it now we'll never know
Black woman, please use your magic, to lose love like this will
be so tragic
Hang on, don't fight, babe, stay with me all through the night
Black woman, feels so right, make love, make love to me

Don't leave me here in hell, weave me your magic spell
'Cause what we've got right now, little girl, we've got it made
This time you've gone too far, I don't care what you are
All I know is that I'm a man and you're a black, beautiful woman

Don't leave me here in hell, weave me your magic spell
'Cause what we've got right now, little girl, we've got it made
This time you've gone too far, I don't care what you are
All I know is that I'm a man and you're a black, beautiful woman

Stay cool, 'cause what your daddy says got to have a little more
Black woman, it's now or never, so, baby, stay with me, let's work together
Hang on, don't fight, baby, mess with me all through the night
Black woman, hold me tight, make love, make love to me
Make love to me, make love to me, make love to me
