

Born On the Wild Side

Peter Green

Born on the wild side, born on the wild side
Well, I crossed the borderline, and now I can't go back in time
, they won't set me free
Born on the wild side, born on the wild side
Where I'm going to the state, now I've left it far too late, baby, stay with me
Please forgive me, momma, but you know I love you, always thinking of you
You're on the wild side, on the wild side
Born on the wild side, and there's no way back
Some say I'm a rebel, but I'm just a pebble, washed up on the seashore
You're on the wild side, on the wild side
Born on the wild side, and there's no way back
Born on the wild side, born on the wild side
Since the moment I could speak, I was standing on my feet, and you should see me now
Born on the wild side, born on the wild side
Now I only take what's mine, can't you see you're next in line, babe, I need some love
Born on the wild side, born on the wild side
Born on the wild side, born on the wild side
Born on the wild side, born on the wild side
