

Gotta Do It With Me

Peter Green

If you want to start a fire in my heart, you got to do it with me

And if you need someone to make you laugh, you got to do it with me

'Cause I'm the one that's holding your controls, and that's the way it's going to be

Come on, babe, come on, babe, come on, babe, you got to do it with me

Come on, babe, come on, babe, come on, babe, you got to do it with me

You want to get the feeling really hot, you got to do it with me

And if you need someone to help you fly, you got to do it with me

'Cause I'm the one that's holding your controls, and that's the way it's going to be

Come on, babe, come on, babe, come on, babe, you got to do it with me

Come on, babe, come on, babe, come on, babe, you got to do it with me

If you want to make run into the night, you got to do it with me

And if you want to make the scenery all light, you got to do it with me

'Cause I'm the one that's holding your controls, and that's the way it's going to be

Come on, babe, come on, babe, come on, babe, you got to do it with me

Come on, babe, come on, babe, come on, babe, you got to do it with me
