Help Me Through The Day

Peter Green

Help me through the day help me through the night
Baby your sweet loving will make everything all right
Help me through tomorrow when stormy weather comes
Lord make me realize that you're my woman
I can see so much pain deep inside your eyes
I know the feeling someone hurts you when someone makes you cry
Help me through the day help me through the night
Babe you make me realize you're my woman
Help me through the day and be my woman
Help me through the night and be my woman
