

Long Way from Home

Peter Green

Well, I'm a long way from home
Ain't got no toothbrush, ain't got no comb
Well, I'm a long way from home
Feeling the weather, yes, feeling the cold

So, baby, will you let me stay the night
Until you see the twinkling of the light
'Cause it's long way from home
And there's a long way to go

Over the mountains, over the seas
I'm long way from home
And at this moment there's just you and me

So, baby, if you let me share your heart
Before you rise I'll make an early start
'Cause it's long way from home
And there's a long way to go

Well, there's a verse here inside
Calling my name now, warming me back
A verse I can't hide
And come tomorrow I might want to stay

So, baby, if you think you need a friend
A friend that you can learn to understand
'Cause it's long way from home
And there's a long way to go

Well, I'm a long way from home
Ain't got no toothbrush, ain't got no comb
Well, I'm a long way from home
Feeling the weather, yes, feeling the cold

So, baby, will you let me stay the night
Until you see the twinkling of the light
'Cause it's long way from home
And there's a long way to go
