

## Look On Yonder Wall

Peter Green

Look on yonder wall and hand me down my walking cane  
I got me another woman, yonder come your man  
You hurried up and went to the wall and you know it was tough  
I don't know how many men you's killed but I know you done killed  
ed enough

I'm in love with you baby but you don't treat me right  
You take all my money walk the streets late at night  
I love you baby but you just can't treat me right  
Spend all my money and walk the streets all day and night

Now your man went to the war and I know it was rough  
Now your man went to the war and I know it was rough  
Don't know how many men he killed but he done killed enough
