

Shining Star

Peter Green

Sat at the river, into the morning sun
And muddy water take me to my shining star
Carry my fire, home on the mountainside

And muddy water take me to my shining star
I ain't here calling the hungry now, hurry now
I ain't here calling the hungry now, hurry now
I ain't here calling the hungry now, hurry now

I've been so far from my shining star
Give me the power into this aching heart
And muddy water take me to my shining star
Just like an arrow flying toward my love

And muddy water take me to my shining star
I ain't here calling the hungry now, hurry now
I ain't here calling the hungry now, hurry now
I ain't here calling the hungry now, hurry now

I've been so far from my shining star
I ain't here calling the hungry now, hurry now
I ain't here calling the hungry now, hurry now
I ain't here calling the hungry now, hurry now

I've been so far from my shining star
Take me to my shining star
Take me to my shining star
Take me to my shining star
Take me to my shining star
Take me to my shining star
Take me to my shining star
