

## When It All Comes Down

Peter Green

The world goes round no one knows what it all means  
You're still out there looking for a brand new scene  
And I'm still here never have been hard to find  
When new gets old I'll be playing on your mind  
When it all comes down look for me I'll still be around  
When it all comes down look for me I'll still be around  
The day will come when there's nothing new to see  
And then you'll know here is where you want to be  
You know my song used to take your heart away  
That same old feel is going to bring you back to stay
