When Somebody Cares

Peter Green

You can live in a dream
Amid all the extremes
Where there'll be no surprise
When you open your eyes
After all you've been through
There's nothing else you can do
But I know somebody cares for you

Your love was abused
Your reputation was used
By people without shame
Who can't remember your name
And from a long point of view
Life can be so untrue
But I know somebody cares for you

In your life you've seen trouble for sure
Time moves on
Don't let it bother you no more

If your life doesn't seem
To follow the dream
Don't tear your life apart
Just trust in your heart
After all you've been through
There's nothing else you can do
'Cause somebody cares for you

In your life you've seen trouble for sure
Time moves on
Don't let it bother you no more
