

God Smoked

Peter Heppner

Weird trip we're on
Just moving on and on
Allowed to look back
But not a step ahead

God Smoked... Obviously
Look around and what do you see?

Handcuffs... blindfold
You're doing what you're told
On god's own assembly line
Biologically divine

God Smoked... Obviously
Think about and what you can't see

And if you're asking where it leads us to
Be sincere
One day we'll have been nothing more than just
A joke in history

Free will and good intense
Are just insignificant
Driving down a dead end street
Evolutionarily

God Smoked... Obviously
Look around and what do you see?

And if you're asking where it leads us to
Be sincere
One day we'll have been nothing more than just
A joke in history

And if you're asking where it leads us to
Be sincere
One day we'll have been nothing more than just
A joke in history

And if you're asking where it leads us to
Be sincere
One day we'll have been nothing more than just
A joke in history
