

Sedate Yourself

Peter Heppner

Sedate yourself
With this song
Till you don't know anything is going on
Sedate yourself
Before you grasp your fate's decided just by chance

Sedate yourself
Until you're numb
The urge to change a thing now might get much too strong
Sedate yourself
Forget your pain
Otherwise the feeling that you're lost comes back again, again,
again, again

Sedate yourself

Believe it all
The news they fake
Remember what they from the start taught you so well
Believe it all
The news they fake
Don't think about everything that is at stake

Believe it all
Each win they claim
And do forget the world around you is no game

Believe it all
It's all the same
So do not try to find the truth again, again, again, again

Believe it all...
