

# Love Is Forever

Peter Maffay

Every night I'm away from you  
I just spend the time thinking of you  
Little ways that you turn me on  
Keep my love for you burning strong

I can say love is forever and I'll never let you down  
Night and day, love is forever and I'll always be around

Been a year since I fell for you  
It's the longest I loved one woman  
Anything that you want me to  
I will do it for you, my love

I can say love is forever and I'll never let you down  
Night and day, love is forever and I'll always be around

If you told me you want to stay  
I will please you in every way

I can say love is forever and I'll never let you down  
Night and day, love is forever and I'll always be around  
I can say love is forever and I'll never let you down  
Night and day, love is forever and I'll always be around
