

This Time You Lose

Peter Maffay

We called you "Mr. Money" when we were still in school
With help from father's fortune you had all you could want
While we were busy fighting, you were busy having
And now you want my woman, well, here's where it ends

This time you lose
This time is no having
Get it into your head, my friend
This time you lose

You know that all your good times, just last one night
'Cause good times that are paid for seem so sold with the dawn
And now it seems this attraction might show you some action
'Cause I won't give up my woman, and that's where it ends

This time you lose
This time is no having
Get it into your head, my friend
This time you lose

There is nothing here for you to buy
I'm gonna tell you just this once
Don't pass this up anymore
Just give up this lady, or leave soon

This time you lose
This time is no having
Get it into your head, my friend
This time you lose
This time you lose
This time is no having
