

(Here's To The) Prom Queen

Peter McPoland

Cause it's true love
High school sweetheart
She's an angel from above
She's a shooting star
(It's) true
Here's to the prom queen

Carry your prom queen down the aisle
Dance to your song and wipe her eyes
Let the wedding band play you out
Drink in the basement honeymoon
And graduation's coming soon
Congratulations to the bride and groom

Kiss oh so quietly
Now that her parents are asleep

This is true love
High school sweetheart
She's an angel from above
She's a shooting star
It's true
Here's to the prom queen

Come Monday evening cap and gown
Come Tuesday leaving little town
Sit on the park bench where you fell in love
Beside the tree you carve your name
Lie in the back seat wide awake
Wipe the tears away and say goodnight

Kiss oh so quietly
Now that her parents are asleep

This is true love
High school sweetheart
She's an angel from above
She's a shooting star
It's true
Here's to the prom queen

Kiss oh so quietly
Now that her parents are asleep

This is true love
High school sweetheart
She's an angel from above
She's a shooting star
It's true
Here's to the prom queen
