

# Make It Stop

Peter McPoland

You can, you can run and hide  
Blow out your brain, make up your mind

You can try to turn it off, start breaking down to make it stop  
Yes, you can try to turn it off, start breaking down to make it  
stop  
Yes, you can try to turn it off, start breaking down to make it  
stop  
Yes, you can try to turn it off, start breaking down to make it  
stop

Come on, show me what you're made of  
Big gun, blow away my pink blood

You can try to turn it off, start breaking down to make it stop  
Yes, you can try to turn it off, start breaking down to make it  
stop  
Yes

Right here, right between my eye-eyes  
No fear, I won't say goodbye-eye  
Beg, bitch, come on, make me cry-y  
Real quick, take away my life-ife

You can try to turn it off, start breaking down to make it stop  
Yes, you can try to turn it off, start breaking down to make it  
stop  
Yes, you can try to turn it off, start breaking down to make it  
stop  
Yes, you can try to turn it off, start breaking down to make it  
stop  
Yes
