

## Groovy Place

Peter Murphy

Your clothes are altered  
To twist me inside  
I'm hanging sweet and kind  
And as I've seen twisted light unravel  
You fly over me

You know you will be mine  
You know you will be mine  
You know you will be mine  
You know you will, you will be

Some crooked love was my own desire  
Now the world was you  
This spying light was feeling lonely  
And I was too

You know you will be mine  
You know you will be mine  
You know you will be mine  
I guess you will, you will be  
You know you will be mine  
You know you will be mine  
You know you will be mine  
You know you will, you will be

It takes one, it takes two  
It takes three to make a bird  
Three birds in the blossom tree  
Four skies in one night  
The earth from your face, from your eyes  
Looks like a groovy place  
Keeps me smiling like a little child  
Looks like a groovy place

Looks like a groovy place  
Looks like a groovy place  
Looks like a groovy place  
Looks like a groovy place
