

## Zone 804

Peter Schilling

A voice from somewhere in the night  
Across a million miles of light  
A tranquil region reaching out from space  
Looking for higher forms of life

The ship from somewhere still unknown  
Sees how deperate we have grown  
Bearing gifts it hesitates behind the moon  
Never been so far away from home

Calling earth and still no one has heard  
The simple message of its words

From the zone 804  
In peace not war  
We come to restore  
Your planet

Curious childrean watch the sky  
Parents call them back inside  
While leaders argue over what to use  
Silos are open standing by

Calling earth and still no one has heard  
The simple message of it's words

From the zone 804  
In peace not war  
We come to restore  
Your planet

From the zone 804  
In peace not war  
We come to restore  
Your planet

From the zone 804  
In peace not war  
We come to restore  
Your planet

From the zone 804  
In peace not war  
We come to restore  
Your lost planet
