

# Gravitation

Petit Biscuit

I'm picturing your face  
With millions of colors  
Just to fill the empty space  
Standing in between  
Our mutual planets

I'm moving back to your gravitation field

I'm drifting in and out  
Your gravitation field  
Stuck in between  
Our mutual planets

I'm picturing your dreams  
With millions of particles  
Just to feel the curve in space time

I'm moving back to your gravitation field

I'm drifting in and out  
Your gravitation field  
Stuck in between  
Stuck in between

Space shuttle "Discovery" still on its way to orbit after a successful ascend up through main engine cut off.
