

Pick Your Battles

Petit Biscuit

Ooh, ooh

Ooh, ooh

Unconditional, it's intentional

Stay right here for you, silver lining too

You gotta pick your battles, choose your war

Everything we have is gone so I

Rule in love, rule in love, rule in love

When it felt like love and it was just love

When it was just us, when all we have was

All we had was love

You gotta pick your battles, choose your war

Everything we have is gone so I

Rule in love, rule in love, rule in love

Ooh, ooh

Ooh, ooh
