

## Take Cover

Petit Biscuit

Just tryna take cover  
Just tryna take cover

I'm tryna take cover  
No, I'd better stay sober  
It's hostile outside  
We're livin' in the wartime  
I'm just tryna take cover  
No, I'd better stay sober  
It's hostile outside  
We're livin' in the wartime

Been a whole year, I been hiding out  
All those soldiers took my family down  
Life is a nightmare, no way to escape  
Bleak is my future, no doubt  
Twenty degrees F in the house  
So what can I do to survive?  
I'm tired of talkin' to myself  
But I'll never say die, I swear

Solo in my city as it's burnin' down  
Chemically dead, but I say it's all right  
Only a miracle can save me now  
I been on my knees, prayin' every day  
God is good enough to give me oxygen  
I made an imaginary friend  
I see him talkin' all night with death

I'm tryna take cover  
No, I'd better stay sober  
It's hostile outside  
We're livin' in the wartime  
I'm just tryna take cover  
No, I'd better stay sober  
It's hostile outside  
We're livin' in the wartime

Just tryna take cover  
Just tryna take cover
