Petite Meller

If lions were as smart as man
I would see more people bathed in blood
A love that was so god-sent
But ruined by who lumps and thugs

But I can't be with you
Cause every time I look at you

It's like a ray of sunshine on my face
The one I'll feel every day
It's like a kiss from god
Loving embrace
But all the darkness makes me feel
Like I'll never get it through
But I'll just keep going
Cause it's the only thing to do

The thing about being you mind
Is we don't know where the ending began
We just thring along by that single shock
Til' everyone 'frers us to stop

But you, you so different
Every time I look at you

It's like a ray of sunshine on my face
The one I'll feel every day
It's like a kiss from god
Loving embrace
But all the darkness makes me feel
Like I'll never get it through
But I'll just keep going
Cause it's the only thing to do

Only thing, only thing
Only thing to do
Only thing
Only thing to do
Only thing to do (Ooh)
But you, you so different
Every time I look at you

It's like a ray of sunshine on my face
The one I'll feel every day
It's like a kiss from god
Loving embrace
But all the darkness makes me feel
Like I'll never get it through
But I'll just keep going
Cause it's the only thing
It's the only thing to do

Je dance la jazz
Avec un passion physique
Real et surreal
Terrifiant et marrant
Nocturne et diurne

Solite et insolite
Le tacky terror
La guerre et la folie
Toutes ces choses
Dans mon sac à dos
Dans mon sac à dos
