

Imaginations

Petra Sihombing

This could be that something
Something you've been waiting for
We could be that something

Imaginations can do anything
In a dark room at the right time babe

When we're alone we can do anything
Everything you want and more

Tell me what you wanna do when I turn the lights off
What you wanna do when I turn the lights off
We got that sunshine in the morning too
To stop just anything we're gonna do

Tell me what you wanna do when I turn the lights off
What you wanna do when I turn the lights off
We got that sunshine in the morning too
To stop just anything we're gonna do

I could be that something
Something you've been waiting for
We could be that something
We can watch the stars all night
Or talk about your starsign baby
When we're alone we can do everything
Everything you want and more

So tell me what you wanna do when I turn the lights off
What you wanna do when I turn the lights off
We got that sunshine in the morning too
To stop just anything we're gonna do

Tell me what you wanna do when I turn the lights off
What you wanna do when I turn the lights off
We got that sunshine in the morning too
To stop just anything we're gonna do

We got that sunshine in the morning too

We got that sunshine in the morning too

We got that sunshine in the morning too

We got that sunshine in the morning too

We got that sunshine in the morning too

We got that...

(So good, yeah)
