

## Right Place

Petra

Got no place to run, gotta look up to see the bottom  
No visible support - no one there you can lean on  
You're all on your own - you know it's sink or swim  
There is no doubt about it, you have to look to Him

When you think you've had enough  
No more you can do  
When you feel like giving up  
Deadline is in view  
When your time is almost gone  
You haven't got a clue  
Now's the time to turn your face

You're in the right place - trusting only Him  
You're in the right place - kick back and just depend  
You're in the right place - to see what He can do  
You're in the right place - He will come through

When you're sinking fast - takin' water in your boat  
No one to bail you out - you think it's all she wrote  
The odds are against you - your chances slim to none  
A hopeless situation - you got no place to run

No one has a rescue plan  
Waiting in the wings  
Now's the time to call His name  
He can do all things  
When your self-reliance fails  
You still have a prayer  
You will have to trust His grace

When you abide, He will provide  
Never shorthanded  
When you will pray, He'll make a way  
He won't leave you stranded
