

Endgame

Petula Clark

Every time I see you
Every time I hold you
Every time I say your name
I seem to see the light
Everything is all right
I've found my endgame

Sometimes in the lonely night
When my worries get me down
I concentrate on your aid
Wishing you were around
So, I call you on the phone
And I imagine your sweet smile
Then you say: You know, I love you, babe
And I'll be with you in a while

Every time I see you
Every time I hold you
Every time I say your name
I seem to see the light
Everything is all right
I've found my endgame

I remember how you touched me
And that lovelight in your eye
How I trembled when you kiss me
And you made me realized
That you're all I've ever wanted
You're everything to me
So let's hold on to that feeling
Till you're home, where you should be

Every time I see you
Every time I hold you
Every time I say your name
I seem to see the light
Everything is all right
I've found my endgame

Every time I hear you
Every time I need you
Or somebody says your name
I feel peace and love
Shining down from moon 'bove
I've found my endgame

Every time I see you
Every time I hold you
Every time I say your name
I seem to see the light
Everything is all right
I've found my endgame
