

Cavity

Peyton Parrish

Cavity

Why don't you let me fall inside?
Is there a way to release this love of mine?
Cavity

Going back to what I know
Was on the otherside
Should have known that you would go
And leave me paralyzed
Cavity

What if I tried to bury the agony
You made me out to be the enemy
Cavity

Going back to what I know
Was on the otherside
Should have known that you would go
And leave me paralyzed

I wanna know, wanna know, wanna know how
To bring this cavity
I wanna know, wanna know, wanna know how
To bring this cavity

I'm feeling overwhelmed
The infestation
I feel that I'm cold in me
The hallucination
I'm holding my misery
The damnation
Somebody, somebody save me! SAVE ME!

I wanna know, wanna know, wanna know how
(Somebody save me)
I wanna know, wanna know, wanna know how
How to bring this cavity

Going back to what I know
Was on the otherside
Should have known that you would go
And leave me paralyzed
Going back to what I know
Was on the otherside
Should have known that you would go
And leave me paralyzed

I wanna know, wanna know, wanna know how
(I wanna know how)
I wanna know, wanna know, wanna know how
To bring this cavity
