

## Fall Into Me

Peyton Parrish

My heart is high of clouds  
The presence of your love  
For drawn to you as tight as wind  
I'll stand by you through it all  
The stillness of my heart  
Every breathe I take is all for you  
I will give my heart to you

Fall into me  
With every part of you  
Share this world, the seas, the stars, eternity  
My Lady  
Fall into me  
With every part of you  
Share this world, the seas, the stars, eternity  
I will give my heart to you

She walks in beauty's light  
Her lips of softness  
Gracefully beautiful as she  
Her soul of fruitful bliss  
A heart of magnificence  
The wind of pure emotion  
I will give my heart to you

Fall into me  
With every part of you  
Share this world, the seas, the stars, eternity  
My Lady  
Fall into me  
With every part of you  
Share this world, the seas, the stars, eternity  
I will give my heart to you

Fall into me  
With every part of you  
Share this world, the seas, the stars, eternity  
My Lady  
Fall into me  
With every part of you  
Share this world, the seas, the stars, eternity  
I will give my heart to you
