

# Fist Into The Air

Peyton Parrish

Fist into the air  
Fist into the air  
Come on, come on

What you fighting for?  
The enemy's at our door  
Are we keeping score?  
All right, all right, it's on

Bring out the fire, bring out the flames

Bring out the fire, bring out the flames  
Hold the line and steady your aim  
(Hey, hey)  
And raise your fist into the air  
Let out your power, let out your pain  
Battle's near, are you with me?  
(Hey, hey)  
Then raise your fist into the air

Come on, come on

Oh it's ride or die  
The enemy in our sights  
I'm wanted dead or alive  
It's time for revolution

Dead or alive  
Dead or alive  
Dead or alive  
Bring out the fire, bring out the flames

Bring out the fire, bring out the flames  
Hold the line and steady your aim  
(Hey, hey)  
And raise your fist into the air  
Let out your power, let out your pain  
Battle's near, are you with me?  
(Hey, hey)  
Then raise your fist into the air

Everybody get your fist up  
(Hey, hey, hey)  
Everybody get, everybody get your fist up

Everybody get, everybody get your fist up

Raise your fist into the air

Bring out the fire, bring out the flames  
Hold the line and steady your aim  
Let out your power, let out your pain  
Battle's near, are you with me?  
Then raise your fist into the air

Bring out the fire, bring out the flames  
Hold the line and steady your aim

(Hey, hey)  
And raise your fist into the air  
Let out your power, let out your pain  
Battle's near, are you with me?  
(Hey, hey)  
Then raise your fist into the air  
  
Fist in the air
