

## For Honor

Peyton Parrish

Sailing across the mighty rivers  
Row and Row to the beat of drums  
Heading amongst the raiding season  
Time we approach the gates of foes

Ready and gather all our strength  
The night has come of soaring reigns  
For the honor, have no fear  
We shall withstand this night of war

Ready and gather all our strength  
The night has come of soaring reigns  
For the honor, have no fear  
We shall withstand this night of war

And the whispers of our fate  
And our honor be for-told

Warriors of the northern lands  
Madness forged into our hearts  
Shields be shattered, arms of steel  
Bloody axes fly with fury  
Raging thunders shake the sky  
The Wrath of battle stains our minds  
Rage of vengeful kings of war  
Fearless sons and daughters fall
