

# Last Night Alive

Peyton Parrish

Saying goodbye, I'm closing the doors  
The midnight return, I can't let you in

What have I become  
The poison inside my heart

Tell me, tell me who you wanna be  
'Cause we're stuck inside of this darkness  
Trembling light is daunting me  
Show me, show me what you wanna see  
'Cause we're facing death like it's our last  
Night here alive, our last night here alive

As I plunge the knife and your lives fade away  
If I'm doing wrong who am I to say

What have I become  
The poison inside my heart

Tell me, tell me who you wanna be  
'Cause we're stuck inside of this darkness  
Trembling light is daunting me  
Show me, show me what you wanna see  
'Cause we're facing death like it's our last  
Night here alive, our last night here alive  
Our last night here alive

Tell me, tell me who you wanna be  
'Cause we're stuck inside of this darkness  
Trembling light is daunting me  
Show me, show me what you wanna see  
'Cause we're facing death like it's our last  
Night here alive, our last night here alive  
Our last night here alive
