

# Raven

Peyton Parrish

There are signs all around me  
The raven sees the death of me  
The pain, I'm way in too deep  
Captivity is seldom what I can't breach

Wait  
Is it all inside my head?  
Am I going to end up dead?  
I wanna know is this the day I make my stand?

Why am I so cold inside, all alone?  
Feeling the pain, needing the pain  
Until I lose and lose and lose it all  
Why am I so cold inside, all alone?  
Feeling the pain, needing the pain  
Until I lose and lose and lose it all

Until I lose and lose and lose it all

These lies surround me  
The fears of the prophecy that crowns me  
Wake up, I need to bring down  
This cage, it's burning like a blackout

I thought I told you I'll be changing my faith  
But one chance is all it took for me to break in the chains  
How you like me now? Are you back in now?  
The death you reap is the same as the game that you play

Why am I so cold inside, all alone?  
Feeling the pain, needing the pain  
Until I lose and lose and lose it all  
Why am I so cold inside, all alone?  
Feeling the pain, needing the pain  
Until I lose and lose and lose it all

Lose it all

You think you got away from me?  
Ah, get out of my head  
I've got the best of you  
This can't be happening  
You're tormented, you are weak  
Just get out  
Listen to me, listen to me  
No  
You've come to your end  
No, this can't be my end  
Die

Die

Command me  
Command me

You won't kill me now  
Die

You are dead to me  
Raven, raven  
You won't kill me now  
Raven, raven  
You are dead to me  
Die for me, die for me  
Die die die for me, die for me, no  
Die for me, die for me  
Die die die for me, die for me

Why am I so cold inside, all alone?  
Feeling the pain, needing the pain  
Until I lose and lose and lose it all  
Why am I so cold inside, all alone?  
Feeling the pain, needing the pain  
Until I lose and lose and lose it all

Until I lose and lose and lose it all
