

Survive

Peyton Parrish

My mind is drowning inside, how do I escape?
The voice inside of my head, holds me hostage
Sabotage all around, confidence breaking down
How do I awake from this nightmare?

I don't wanna fall, I don't wanna die
I just wanna live, survive another night
I don't want to hear the voice inside
I just wanna live, survive another night

My pain trapped inside a cage, fights to get out
This place won't keep me restrained, I shall break out
Sabotage all around, confidence breaking down
How do I awake from this nightmare?

I don't wanna fall, I don't wanna die
I just wanna live, survive another night
I don't want to hear the voice inside
I just wanna live, survive another night

I don't wanna fall, I don't wanna die
I just wanna live, survive another night
I don't want to hear the voice inside
I just wanna live, survive another night

Will I survive?

I don't wanna fall, I don't wanna die
I just wanna live, survive another night
I don't want to hear the voice inside
I just wanna live, survive another night
