I'm already I'm already
I'm already I'm already

Tonight could be
The last time i see the stars shining on me
If its so i wont run
It's already done

I'm already I'm already
I'm already I'm already

To go when its time
I lost myself long ago only to find
That my loss was my gain
With you i remain

I'm already I'm already
I'm already I'm already

I'll live and i'll love
Take less then i give for i have enough
Believe that in time
You'll see that i'm

I'm already I'm already
I'm already I'm already
