

## A Classic Case Of...

Pg.99

We're going to learn  
From a guide:  
Can a bug preach hope?

We'll soon strike  
Like the truth  
Carry up the sword  
Like a hero  
Try to evict us  
How does it feel?  
(Now take it back)

(Now they're dead)  
No more chronicles, now they're gone  
(Dead)  
No more transcendence or love  
(Dead)  
No more child in your arms  
(Dead)  
One more Quran all along

In time  
You want to deprave

We'll soon strike  
Like the truth  
Carry up the sword  
Like a hero  
Try to evict us  
How does it feel?  
(Now take it back)

(Now they're dead)  
No more chronicles, now they're gone  
(Dead)  
No more transcendence or love  
(Dead)  
No more child in your arms  
(Dead)  
One more Quran all along

You're fucked

Above, above...  
Yes you see, you are from  
As you see, you are a lord from  
Above, above...  
Yes you see, you are from  
Can't you see, you are challenged from  
Above, above...  
Yes you see, you are from  
Can't you see, you are challenged from  
Above

Ciao, ciao...
