

Smiles on me  
I been geeked up like Arthur Fleck  
But jokes on me  
'Cause I'm also really scared to death  
To find out if this emotion I'm feeling's mutual, yeah, yeah  
The high from you is harder than these pharmaceuticals  
No more poppin' pillies  
Living freely  
I'll fly you out to Tokyo  
And drift in Lamborghini  
Living fast, so we can die young  
On some Bonnie and Clyde  
You don't gotta change a bit  
'Cause I've found me a dime  
You kept me alive

World is spinning around you  
360 degrees  
What have you done to me  
Never will I leave  
Never will I leave your side  
Why would I ever lie?

So, what we on, bro?  
My hands on pause  
But man I swear my heart be on go  
I done fell in love before  
I'm open to the encore  
Slide through pick me up  
Quick, fast, pronto  
We don't have no clue about where we gone go  
But we was meant to be here  
I feel it in my shondo, filled with such emotion  
Steady hoping it ain't wrong though  
Take it somewhere private, beach-side condo  
You and me a vibe, so you know I'ma ride  
Until the day that I die

If I, if I got money  
If I, if I go broke  
If I, if I'm Mr. right  
If I'm Mr. dead wrong  
Would you still ride with me?  
Even at my low  
Would you still be with me?  
Even at my low  
If I, if I ride a foreign  
If I, if I just crawl  
If I, if I got full hair  
Or if I go bald  
Would you still ride with me?  
Even at my low  
Would you still be with me?  
Even at my low

I've heard a thing or two about  
What you say that you about?

And if you want to be  
The one who down with for me  
You can't just say the words  
You gotta let me see  
Baby, what we about to be?

Girl I'm in love so deep  
Like 'za from Lou Malnati's  
I got my eye on you  
On daily like illuminati  
Skrرت on these haters  
'Cause my time expensive  
Omega on my left wrist  
You know this drip is deadly  
Others they be on average  
So, baby, let's celebrate  
Champagne got me elevated  
Why don't we stay in bed?  
Forget the flight tonight, and never make it  
I know sometimes I drive you crazy  
At least it's a Mercedes  
I really hope you get my intentions  
So, what I'm saying is

If I, if I got money  
If I, if I go broke  
If I, if I'm Mr. right  
If I'm Mr. dead wrong  
Would you still ride with me?  
Even at my low  
Would you still be with me?  
Even at my low  
If I, if I ride a foreign  
If I, if I just crawl  
If I, if I got full hair  
Or if I go bald  
Would you still ride with me?  
Even at my low  
Would you still be with me?  
Even at my low

I've heard a thing or two about  
What you say that you about?  
And if you want to be  
The one who down with for me  
You can't just say the words
