

# Groupie

pH-1

Think I seen your face  
Can't remember when  
Feel so out of place  
But it's alright  
Outfit extra clean  
In the VIP,  
You sitting next to me  
Looking pretty, tell me what you need  
Tell me what you want  
Tell me what you came for  
Having a lotta fun?  
Getting your drinks on?  
Curving them scrubs?  
Do you  
Good girls like you get loose too  
Said you love my crew  
And you love my music  
Showing a lot of interest  
In what I do and where my stu is  
They say Lucifer's got the most attractive face  
Everything about you tells me that you might be fake  
Understand I ain't the type to quickly judge but you just wanna hold my hands  
Especially in front of all my fans

You say you love me  
But you keep asking bout my friends, my friends  
Begging for selfies  
So you can flex on your friends, your friends  
Are you a groupie?  
Tell me straight up  
Is you a groupie?  
I'm tryna do me  
Don't waste my time  
Is you a groupie?

People in the club  
Thinkin you and me, we best of friends  
Girls be grillin at you all night  
Please don't mess with them  
Itty bitty pretty kitty  
Finna get freaky with me yea  
Pictures and the kisses  
Oh my God you so restless  
Why you gotta be so hot  
Why you gotta be so cute  
Woulda been easy  
Tryna be breezy  
But I can't keep my cool  
Why you gotta be so blunt  
Why you gotta be so nosy  
Feels like you tryna interview  
But you aint really gotta know me  
All my friends tell me  
You just want my dollars  
Only tryna flex for the gram  
And I should never call you

Benefit of the clout  
It's a problem  
Yea you know it's true  
Want my fame  
My last name  
And my feelings too

You say you love me  
But you keep asking bout my friends, my friends  
Begging for selfies  
So you can flex on your friends, your friends  
Are you a groupie?  
Tell me straight up  
Is you a groupie?  
I'm tryna do me  
Don't waste my time  
Is you a groupie?

Fever  
I need to recover from the sickness  
We are  
Nothing but what is left of business  
Fever  
I need to recover from the sickness  
We are  
Nothing but what is left of business  
Fever  
But it's alright  
Imma stay home by myself all night  
Please girl  
Hear me out  
Stay away from me, stay out of my sight  
Fever  
But it's alright  
Imma stay home by myself all night  
Please girl  
Hear me out  
Stay away from me, stay out of my sight
