

Trustfall

pH-1

Sun comes up
When it's early in the morning
And the kids are yawning
For another day
I'll follow you
When I'm lost
You take me by the hand
Can you help me understand
Why I'm forgiven
Show me a clue

Cus it feels like
I've come far
Away from you
In the darkness
You're my light
That leads me through
Whenever I fall
You pick me right up

You're my trustfall
Years went by
Though I'm wealthier than ever
Nothing lasts forever
You can take my all, if it steers me from you
I was young
Thinking I had all the answers
Living life while taking chances
What a dangerous game
Guess I was a fool

Cus it feels like
I've come far
Away from you
In the darkness
You're my light
That leads me through
Whenever I fall
You pick me right up

You're my trustfall
