

# Glowing

Phantogram

All I needed was for time to pass away  
All I needed was to pass the time away  
But it still keeps going and going and going  
So we still kept glowing, glowing, glowing, but no one came

All I needed was for light to reach the plane  
And all I needed was you to find me on a wave  
But it still keeps rolling and rolling and rolling  
So we still kept glowing, glowing, glowing, but no one came

No one saved us  
No one saved us  
No one saved us  
No one saved us

In your eyes, there's nothing there  
Nothing there, I see nothing there  
Wave goodbye, it's gone away  
Say goodnight to your sunny days  
In your eyes, there's nothing there  
Nothing there, I see nothing there  
Wave goodbye, it's gone away  
Say goodnight to your sunny days
